# More About Our Health Ministry

Our Health Ministry include the many ministries of a faith community that promote wholistic health. Health is viewed as a gift from God and a way of relational living in community. These caring ministries are an essential part of congregational life.

**Our Health Ministry** encourages, supports and empowers leaders in the integration of faith and health in their local communities.

## What Our Health Ministry Incorporates

The Health Ministry incorporate the values, beliefs, and practices of a faith community as components in motivation persons toward health and wholeness. Health promotion and religious beliefs are integrated into the normal cycles of life - birth, wellness, development, maturation, illness, and death - to celebrate life; to enhance coping, wholeness, and a sense of peace; and improve community well-being
